FÖRORD

MITT SPRÅK

De flesta syriska böckerna på det syriska språket är talrika, men däremot är läromedlen i det syriska språket få enligt nutidens undervisningsmetod. Därför anser vi det är bra att tillämpa denna nya metod bland de nya eleverna.
Bokens undervisningsmetod följer nutidens forskning i språkundervisning som används inom de svenska och europeiska skolorna.
Boken är byggd på så sätt att med hjälp utav stavelserna kan man bilda ord och till slut fullständiga meningar. Hela den här processen underlättas ytterligare med hjälp av de fina bilderna.
Vi hoppas att våra duktiga syrianska lärare skall satsa all sin styrka på att lysa upp vägen för sina elever. Som Mar Afram Suryoyo sa:

Vi önskar också att våra kära elever skall gå efter deras förfäders spår för att bevara och utveckla deras heliga språk, därför att:
